

# **TiB**

**TECHNOLOGY INSPIRED BUSINESS**

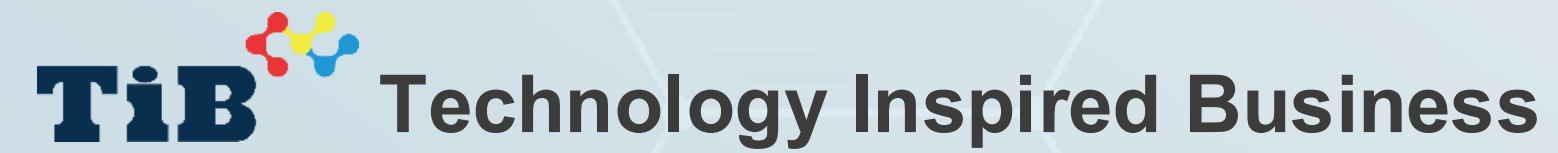

# Hello **And** Welcome !

*“We support to accelerate your business by consulting, supplying, integrating and managing your IT.”*

# Introducing about Company

From the outset, we at TiB have believed a simple truth that “together is the key for success”. When you team up with us, you’re partnering with a team you can trust. Our focus is on providing you with IT solutions that are flexible, scalable, cost-effective, efficient and productive.

*Let us be the clear partner of choice for your IT needs.*

## Guaranteed Works

We are an IT services provider and experienced value-added reseller that provides our customers with complete technology solutions, including hardware products, software licenses, and IT services.

## Detailed Price

We have various pricing models available as an IT system integrator. Our pricing models are designed to meet the business objectives of organizations, either small or large scales.

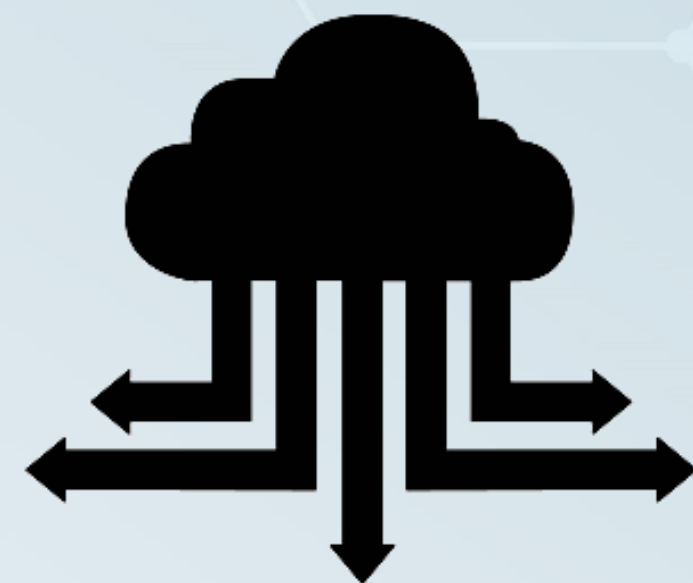

## Flexible Support Options

IT Intelligence provides personalized schedule of proactive maintenance for your information systems, identifying and preventing potential problems before they affect your organization. Your business will get priority-based IT support, and a regular schedule of remote or onsite attendance.

# Our four key Values

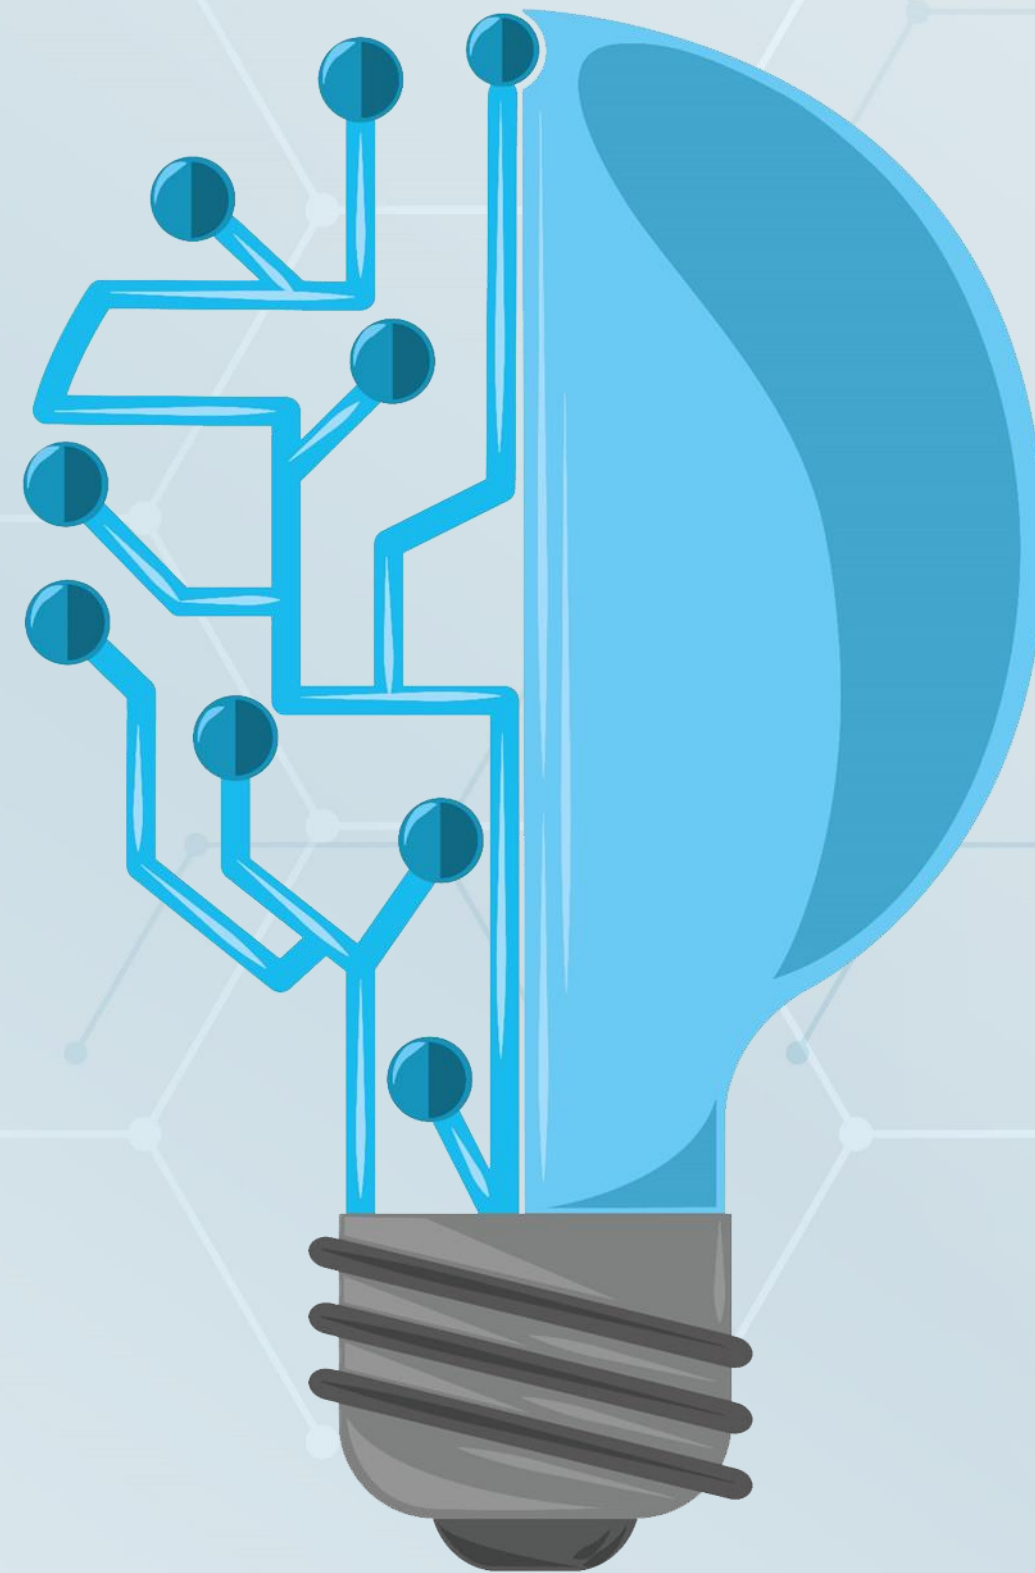

## Listening

Attentionally listen to customers, an effective way to tell us how to resolve their IT issues.

## Learning

We are always self-motivated and self-learned day to day.

## Communication

We are thoroughly aware that communication is the vital value to key success.

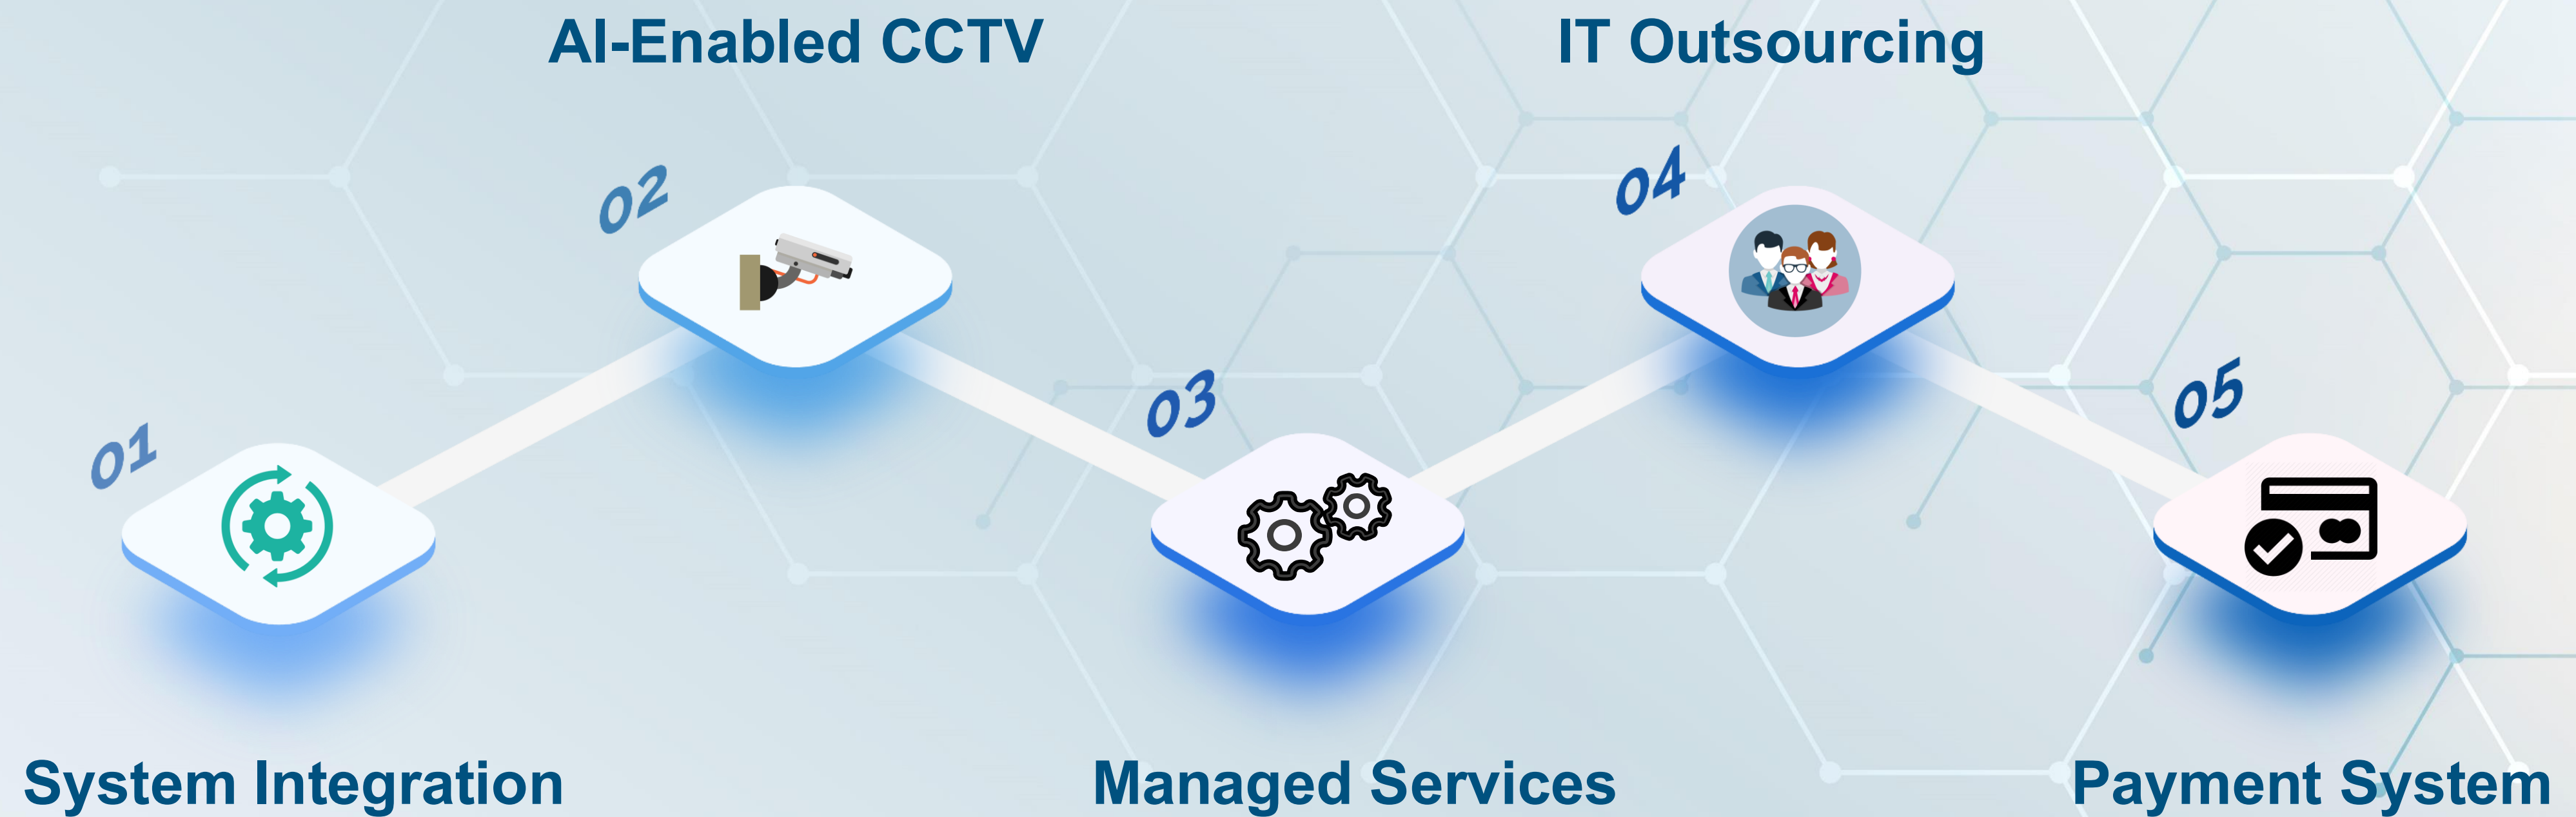

## Troubleshooting

Last but not least, our troubleshooting skills are on top of a notch.

# Our Services

# Our Services

## AI-Enabled CCTV

Transform traditional video surveillance into intelligent, proactive security systems. By combining high-definition cameras with advanced artificial intelligence, our solutions provide real-time monitoring, smart detection, and actionable insights—far beyond simple recording. Features such as facial recognition, behavior analysis, intrusion detection, and instant alerts help organizations prevent incidents before they happen. Designed for accuracy, scalability, and ease of management, our AI-powered CCTV delivers enhanced safety, operational efficiency, and peace of mind for businesses of all sizes.

Giving your business access to expert technology talent while reducing operational complexity and costs. We act as an extension of your team, delivering skilled professionals and managed resources to support your IT operations, projects, and digital transformation initiatives. From day-to-day IT support to specialized engineering and system management, our flexible outsourcing model ensures high performance, faster delivery, and predictable costs—so you can stay focused on your core business while we handle the technology behind the scenes.

## IT Outsourcing

# Our Services

## Managed Services

Enable businesses to focus on growth while we take care of their technology. Our proactive approach ensures your IT systems run securely, efficiently, and reliably around the clock. From infrastructure monitoring and cybersecurity to system maintenance, updates, and user support, we manage your entire IT environment with expert care. Backed by dedicated specialists and clear service-level commitments, our managed services reduce downtime, control costs, and provide the peace of mind you need to scale with confidence.

## System Integration

Empower businesses to operate smarter, faster, and more securely by unifying technology into one seamless ecosystem. We deliver end-to-end solutions, starting with expert consulting to understand your goals and design the right architecture, followed by professional implementation that ensures smooth deployment and optimal performance. Our commitment doesn't stop at delivery—through reliable post-sales support, continuous optimization, and proactive maintenance, we help your systems stay resilient, scalable, and ready for future growth.

# Our Services

## Payment System

Enable businesses to deliver fast, secure, and seamless payment experiences to their customers. In cooperation with a well-known, trusted technology vendor, we provide end-to-end payment solutions including certified payment platforms, POS terminals, and smart payment devices designed to meet the highest standards of security and reliability. From consultation and deployment to ongoing support, our solutions help businesses accept payments with confidence, improve transaction efficiency, and enhance customer satisfaction across multiple payment channels.

# Our Services

## Our value Partners

As a partner, TiB provides a wide range of products and services from many manufactures such as Dell-EMC, Fortinet, Lenovo, Veeam, Zebra HPE, VMware, Symantec, Fujitsu and RMM Solution.
